DOUBLE-DIP YOUR NAILS

We all know how important layering clothes is this season, well, next season is all about 'nail layering.' How so? At Madison Kirshoff, nail technician Flory White layered Nails Inc's South Bark, £10.50, with Revlon's Sheer Nails, £6.16, to create a dove grey shade she's coined 'city smoke'. Nail guru Leighton Denny is also getting in on the act. To have a "color cocktail" count for my technicians to learn new double-dipping techniques," he says. This summer, Leighton has brought out four shades with "color cocktail" in mind (See Kitten, Babydoll, Gorgeous and Serpentine). It's dead easy and means that you've instantly doubled your nail colour collection. Now that's what we call crack-crack-crack!

THE RETURN OF LIP LINER—IT'S SO BAD IT'S GOOD!

It's been in beauty since Nancy Dell'Olio made it a beauty no-no, but lip liner's set to make a major comeback. Make-up artists were swearing by it at the shows 'n it's the only way to stay-egg your lips', Linda Casullo told us backstage at Amal. The new way to apply it? Just put liner on your cupid's bow in a V shape, "which makes it soft and natural," said Linda. Try Giorgio Armani's Smooth Silk Lip pencil in 4. Need a further seal of approval? At Vivienne Westwood, lip liner is Pamela Anderson stacked the return of the mid-'90s beauty trend. Firstly, you can line with pride!

LIP GLOSS—THE NEW EYESHADOW

There's a new trend in London, Paris, New York and elsewhere: Lip gloss is back! It's the new eyes shadow. It's the new lipstick. It's the new mascara. It's the new everything. It's a perfect solution to the problem of the lip and the eye, and the eye. When a subtle shimmer of lip gloss is applied to the eye, it appears to lift the eye and make it look more open and larger. We have glosses in glimmer, eye shadow in Peach, 11.2, and MAC's new Eye Shimmering Lip Gloss in Dark shade.

“Try a skintone pencil which, if applied in the water line, will eliminate red from eyes and make them look wider and bigger.”
