# CHANGING THE FACE OF ACNE

AGERA® Rx Medical Formula is a revolutionary method for treating acne with a combination of skin peels and advanced skin care products. This system has been clinically proven to dramatically reduce bacteria, blocked pores and skin discolouration associated with acne. The rapid control of acne symptoms is essential to minimise the risk of future scarring.

has been clinically proven to rapidly improve acne skin conditions.

## DELIVERING CLEAR RESULTS

### AGERA® Rx Acne skin peels

These unique peels are non irritating and cause no down time from skin shedding or redness. AGERA® Rx acne peels help control bacteria while reducing blocked pores.

For optimal results, a series of AGERA® Rx acne peels should be combined with medical microdermabrasion to help remove blackheads and diminish existing acne scars.

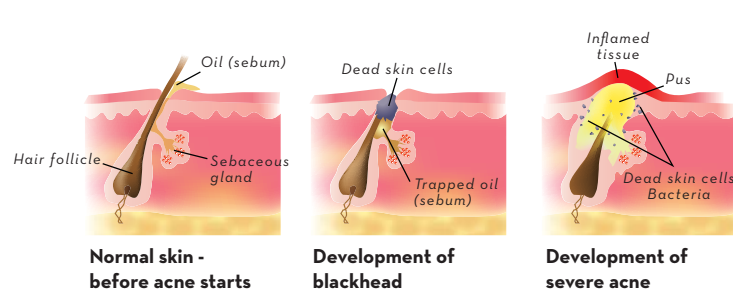

Before

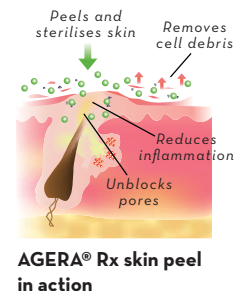

After

### Acne Before Treatment:

### Acne During Treatment:

### After Treatment:

### Cleansing the skin

AGERA® Rx cleansers have been formulated specifically for oily and acne prone skin and leave the skin feeling clean and refreshed.

### Controlling bacteria

AGERA® Rx formulations use highly active peptides to eliminate bacterial causes of acne while stimulating collagen and elastin without irritation.

### Preventing and controlling acne

AGERA® Rx uses AHAs and BHAs (salicylic and L-ascorbic acids) to provide significant results by reducing inflammation, decreasing bacteria and preventing new acne eruptions.
